Early Steps Program University of Miami-Miller School of Medicine

Date & Location

**Tuesday Evening March 15, 2016**

**Palm Beach Airport Hilton, 150 Australian Ave, West Palm Beach**

Schedule of Meeting **5:30-6:45** Reception & Registration **6:45- 7:00** -Business Meeting  
**7:00 – 9:00** Neonatology & Pediatric Care of NICU Graduate Presentation

Overall Goal of the Program.... **Provide better outcomes for the NICU graduate through reviewing the advances and challenges of Neonatal care adding perspective, depth and quality to the role of the Pediatrician caring for the NICU graduate both medically and developmentally.**

Target Audience: This synergistic education opportunity is for members of the Palm Beach Pediatric Society, Neonatologists, Pediatricians and Pediatric Subspecialties and any healthcare providers who care for infants.

### **Triumphs and Tragedies in Neonatology-Lessons Learned**

**Presented by: Avroy Fanaroff, MD** *Objectives:* • To review the history of advances in the care and prevention of Rh disease. • To know the risks and benefits of oxygen therapy in the Newborn. • To be aware of the hazards of antibiotic therapy in premature neonates. • To recognize the important advances in the care of preterm neonates resulting in improved survival

### **Developmental Care and Concerns of the NICU Graduate**

**Presented by Michelle Berkovits, Ph.D.** *Objectives:* • Identify biological, medical, and psychosocial risk factors for developmental delay among NICU graduates. • Examine developmental outcomes among high-risk NICU graduates. • Make appropriate recommendations for developmental follow-up and early intervention services for high-risk NICU graduates.

### **Medical follow-up of High-risk NICU Graduates**

**Presented by Silvia B. Fajardo-Hiriart, M.D.,** *Objectives:* • To review the transition process for high-risk infants from the NICU to a pediatric medical home. • To identify the common medical conditions seen in high-risk infants in the follow-up clinic. • To determine appropriate medical sub-specialty and neurodevelopmental follow-up of high-risk infants.
